

a wider choice to reflect your growing video conferencing needs

Sony FCB Series is the world's widest and most customer focused range of colour autofocus camera modules. Full HD quality, Wide Dynamic Range, Auto Focus and up to 36x optical zoom, ensure amazing image clarity. These rich features and zoom options give unparalleled flexibility, allowing Sony FCBs to be used in many wide ranging applications without sacrificing quality. SD and HD modules are available offering maximum choice and specification to fit your application.

There's simply no better set of visual communication tools worth looking into, whatever you're inspecting, analysing, monitoring, broadcasting or recording.
